

Help Out on State Natural Areas

Southern Wisconsin Travelling Seed Crew

Enjoy the simple act of seed collecting, a little adventure, and being outside. We will travel around southern Wisconsin (often 1 hour from Madison) to collect seed for ongoing restoration projects on important State Natural Areas. This is a great activity for new or experienced seed collectors with the chance to learn about and see new sites. We'll meet at [3911 Fish Hatchery Rd](#) at 9am and carpool from that location or you can choose to meet us on site. Then we'll collect till 1pm, find a place to eat a picnic lunch together (bring your own), and be back by 3pm or earlier. Come for one date or all 4.

On the 4th Wednesday of the month.

2019 Schedule:

July 24- [Sugar River Wetlands](#) arrive on site at 9:30am

August 28- [Mazomanie Oak Barrens](#) arrive on site at 10am

September 25- [Dewey Heights Prairie](#) arrive on site at 10:30am

October 23- Empire Prairie (location TBD) arrive on site at 9:45am

Additional regularly occurring seed focused workdays are occurring both on weekends and during the week ([check the webpage](#) to find more details.)

What to wear/bring: Dress for the weather and wear long pants, long sleeves, sturdy shoes, gloves (optional). Bring drinking water, sunscreen, bug spray, and strong scissors if you have them.

Contact: Please RSVP for the workday by contacting Jared Urban at jared.urban@wisconsin.gov or 608-228-4349.
